

WaspNest

BARCODING SOLUTIONS

Big Business Tools. Small Business Attitude.

Track and manage your assets or inventory with the complete WaspNest solution. WaspNest makes it easy to use barcodes in your business, eliminating data entry errors and allowing you to accurately manage assets or inventory in your home office or small business. The solution includes a barcode scanner, barcode labeling software, and basic tracking software. In just three simple steps, WaspNest will help you create, scan, and track – enabling your business to reach its maximum potential.

Create Barcodes

Use WaspLabeler to design, create, and print barcode labels.

- ▶ Quickly create and print standard or custom labels for assets, inventory, shipping, and more
- ▶ Select from over 20 pre-built label templates or design custom labels for your business
- ▶ Supply data for your barcodes by typing in the number or connecting to an external data source, including Microsoft® Excel® or QuickBooks®

Scan Barcode Labels

Just connect the Wasp barcode scanner to your computer's USB port, and the scanner is instantly ready to use. Choose the Wasp scanner that best fits your application.

- ▶ WLS9500 Laser Scanner
- ▶ WLR8900 CCD LR Scanner
- ▶ WCS3900 CCD Scanner
- ▶ WWR2900 Pen Scanner

Continue reading for more information about the scanners available in WaspNest.

Track Assets or Inventory

WaspTrack software is perfect for basic asset or inventory tracking.

- ▶ Accurately track on-hand inventory, locations, and reorder points
- ▶ Capture data about assets, including location and value

BARCODING SOLUTIONS

Big Business Tools. Small Business Attitude.

WLS9500 LASER SCANNER

Ideal for reading barcodes on flat or curved surfaces. Recommended for light to heavy use in office, library, retail, medical, or warehouse applications. Includes a 8-foot cable.

- ▶ **Scan Range:** Up to 29" away from barcode
- ▶ **Scanning Rate:** Best
- ▶ **Other Attributes:** Offers rapid scan speed and versatility, and can read damaged or dense barcodes

WLR8900 CCD LR SCANNER

Ideal for reading barcodes on flat to slightly curved surfaces. Recommended for light to heavy use in office, library, retail, medical, or warehouse. Includes 8-foot cable.

- ▶ **Scan Range:** Up to 12" away from barcode
- ▶ **Scanning Rate:** Better
- ▶ **Other Attributes:** Delivers the durability of a CCD scanner with expanded scan range

WCS3900 CCD SCANNER

Ideal for reading barcodes on flat surfaces. Recommended for light to medium use in office, library, small retail, or home. Includes a 8-foot cable.

- ▶ **Scan Range:** Contact to 1" away from barcode
- ▶ **Scanning Rate:** Good
- ▶ **Other Attributes:** Lightweight, durable design ensures reliability

WWR2900 PEN SCANNER

Ideal for reading barcodes on flat surfaces. Recommended for daily use in office or library environments. Includes 6-foot coiled cable.

- ▶ **Scan Range:** Scans barcode on contact (0")
- ▶ **Scanning Rate:** Good
- ▶ **Other Attributes:** Compact size is ideal for space-constrained environments
